Jill Stein and Rudolph Ware are the only candidates with a path to the White House who will stop the military madness on day one by cutting off all U.S. arms and funding to Israel to force an immediate ceasefire, stop the genocide, and end the decades-long illegal occupation of Palestine.

Here's her message today and a video of Jill and Dr. Ware addressing the issues:

We're getting down to the wire, and time is running out to make sure that voters know that they can vote their values with Stein/Ware.

We know the corporate media is trying to marginalize this historic campaign. The billionaire class only amplifies the voices of their bought and paid for duopoly candidates. The DNC is so threatened that they put out their own ad to tell lies about Jill, because we've got the empire running scared. But we need to get the word out to millions of voters, so we're making our own ads to get the truth out there – voters don't need to choose between the corporate parties of war and Wall Street, they can vote their values with Jill and Butch.

The Green Party of Mississippi says, "Voting for Dr. Stein and running mate Dr. Rudolph 'Butch' Ware in Mississippi this year is very unlikely to change us from a 'red state' to a Green state. That depends on how ready we are to vote for real change in Mississippi's 2025 municipal elections and future campaigns.

"Votes for Stein and Ware on November 5, however, will count toward the 5% of the national popular vote they need to get federal matching funds like the rich parties now get so more voters can be reached about Green values.

"And watch for announcements of the upcoming visits of Ware and Stein to Mississippi!"
