Green Election Commissioner on Voting Machines

Mississippi can and should lead the nation in voting and election reforms, beginning with a reliable voting machine that should fulfil the following requirements:

Voter Verifiable Paper Trail-a paper receipt that the voter can verify.
Security-security from tampering at all stages of the process.
Accessibility-ease of use by blind or other handicapped persons.
Compatibility With Future Election Reforms-capable of instant runoff voting,
an election reform that [can] save significant funds for Mississippi taxpayers
by eliminating runoff elections.

Greens Oppose Gulf Coast Oil Drilling

Mississippi Development Authority Hearing- **Jackson, MS**
I went to Jackson yesterday to speak my mind about offshore drilling in the
Gulf. Leland Speed and the representatives from the oil/gas companies did
not care what people said on the topic. I have never seen such a diversified
group of people angered by an issue: Fisherman, Tourists, Sierrans,
Republicans, Democrats, Independents, Greens, and the list goes on and on.
In my opinion, 99.9% of the Gulf Coast does not want this. This fight is far
from over. I plan to do what it takes in order to prevent this. All my time and
efforts will be used to stop this atrocity. **Michael Dixon, Gulf Coast Greens**

GREEN LAUGHS

Why did the neoconservative cross
the road?

He didn't. Neocons can't see another
side to anything.
