Were we chosen with dictatorial powers, or were we sent forward as servants of the public, to do their business? The latter, clearly. -

In May of 2005, my wife Lynn and I bought 18 acres in Magee, MS and came here to live. We grow organic crops and are starting a Blueberry Farm, Retreat and Teaching Center. We were active with the Green Party of Florida and joined the Green Party of Mississippi when we moved here. One of my main reasons for running for Constable in Simpson County is to promote criminal/justice reform, including the decriminalization of drugs and rehabilitation of offenders.

I was born in Chicago about half a century ago. In May, 2005, I and my husband Bill moved to Mississippi from St Peterburg, FL. and joined the Green Party of Mississippi. Mississippi needs Green Party values, including strong local economies, sustainable agriculture, and grassroots democracy. I will promote these values as your State Representative.
